

## Shield Statement 2.

**Anti-bullying policy – Our organisation has an effective anti-bullying policy in place which is available for everyone to access.**

### **Ideas to Inspire:**

As an organisation you can create a student-friendly version of the anti-bullying Policy developed by young people, displayed throughout the organisation, and widely communicated with the whole community. This could involve displaying it and/or key messages on walls in your organisation, and/or virtually on your website.
