

Supporting an Anxious Child or Teen

Digital Mental Health and Wellbeing
Programmes – Information for Professionals

SilverCloud

Childline
by ISPCC

Online mental health support for children, young people and parents.

These programmes have been created by SilverCloud, pioneers in digital mental health and global leader of evidence-based digital wellbeing and behavioural health solutions.

You can refer parents / carers / children and young people aged 14-18 years to us. Children and young people must have parental consent to participate.

The programmes outlined in this document are not suitable for high risk users or those experiencing suicidal ideation. Please see urgent medical advice in such instances.

About the programmes

We offer FREE digital programmes aimed at reducing anxiety for children and young people, as well as digital programmes for parents and carers around managing their own anxiety while supporting their anxious child or teenager.

These programmes, developed by SilverCloud* are based on the principles of Cognitive Behavioural Therapy (CBT). They incorporate mindfulness practices and are specifically designed to assist in managing anxiety.

They aim to empower participants to think and feel better and to apply the given techniques in their day-to-day lives.

A trained member of our Childline team will guide and support each participant through their programme confidentially.

Our Space from Anxiety programme is grounded in the principles of Cognitive Behavioural Therapy (CBT). It is engaging, interactive and uses quizzes, mindfulness exercises, audio and visual clips to help manage anxiety and reduce the distress associated with anxiety. It has shown to bring about positive, long-term results.

** SilverCloud is a leading global provider of evidence-based digital wellbeing and behavioural health solutions*

Who they are for

Space from Anxiety is for 14 – 18 year olds and is designed to empower young people who experience low-to-moderate anxiety. The programme teaches young people techniques they can use every day to help them cope with whatever might come their way.

Supporting an Anxious Child and Supporting an Anxious Teen are for parents or carers and will help them explore anxiety and support their child or young person. These parent/carer programmes are suitable for those with children aged between 5-18 years of age.

How to refer

To refer a client, please contact our support line on 01 522 4300 between 9am and 1pm Monday to Friday, or email spacefromanxiety@ispcc.ie

The programmes are supported by the HSE National Office for Suicide Prevention, as part of Connecting for Life, Ireland's National Strategy to Reduce Suicide.

What young people will learn

Understanding Anxiety

An introduction to Cognitive Behavioural Therapy (CBT) and an explanation of anxiety, how it affects the user and how CBT can help manage it.

Noticing Feelings

The user learns about emotions and how to use physical sensations as a way of tuning into one's emotions.

Facing your Fears

The user learns how to break down their fears into small steps in order to face them.

Spotting Thoughts

Users learn about how their thoughts affect how they feel and become aware of negative thought patterns.

Challenging Thoughts

Users learn how to create thoughts that are more balanced.

Managing Worry

The role worry plays in contributing towards anxiety is explained and users learn how to manage their worry.

Bringing it all Together

Users learn how maintain the skills and habits taught in the programme.
